

## **Enerbank 866-405-7600**

You will be asked for the contractor's number which is **10418**

Your loan code is **DEL2622** (Traditional Home Improvement Loan)

We require a **\$500 dollar deposit** (plans and permit) so you will want to subtract that from the total cost as well as any other money that you wish to put down.

Our financial company cannot do staged funding. Due to the fact that our terms are \$500 down upon signing 50% to start 50% upon the day of completion. We may not be able to finance your job unless you are able to pay the first 50% by other means than finance. If you do not have the means to pay the 50% you can still have your garage built but you will have to have all the paperwork signed and turned in to finance company at the start of the job.
